

## Cytophage CEO to Present at TEDx Winnipeg Event

Winnipeg, June 4, 2024. Cytophage Technologies Ltd. (TSXV:CYTO) (“**Cytophage**” or the “Company”), the only publicly traded phage company that is focused on bacteriophage solutions for both animal health and human health, is pleased to announce that its CEO Dr. Steven Theriault, is set to present at TEDx Winnipeg on June 6, 2024, at the Prairie Theatre Exchange. Dr. Theriault’s topic, highly relevant to today’s antibiotic resistant world, is ‘Bacteriophages as the silent cure to antimicrobial resistance’ (AMR).

TEDx events offer an intriguing mix of scientists, entrepreneurs and artists that have one thing in common - they bring forward disruptive ideas in their respective sectors, challenging established concepts and encouraging new perspectives and thinking. Dr. Theriault, who has a PhD in molecular genetics and virology and 15 years experience at Canada’s National Microbiology Lab, is a uniquely qualified presenter. He is at the forefront of the global battle against antibiotic resistant “superbugs”. His company, Cytophage, and its team of scientists, develop highly specific bacteriophages, viruses that destroy harmful bacteria.

With more attention on the threat of AMR in the media, and the World Health Organization identifying AMR as one of the top global public health and development threats<sup>1</sup>, the search for viable solutions is an opportune topic for a TED event.

“The worldwide overuse of antibiotics and increased globalization has created the next human health catastrophe in which resistant bacteria are spreading faster than at any other time in history”, commented CEO Dr. Steven Theriault. “Cytophage is truly meeting the moment by developing phages that can uniquely combat bacteria strains that have become resistant to antibiotics. I am thrilled to discuss our innovative phage technology and its potential applications to an ever-growing TEDx audience.”

TEDx is the grassroots TED initiative with the mission to discover “ideas worth spreading,” with talks from local speakers who share ideas that help people understand and navigate the world. Volunteers from the local community organize a TEDx event, and just like TED events, its goal is to spark conversation, connection, and community. All TEDx Winnipeg speakers and organizers are volunteers who are committed to developing and building innovative ideas. More information about the TEDx Winnipeg event is available at <https://tedxwinnipeg.ca/>.
